

# Year Six Spring Term Overview

## English

This term we will continue to use a range of texts, illustrations and film to inspire and develop our reading and writing skills.

We will focus on applying our grammar skills to develop our ability to write accurate and purposeful sentences. We will apply both our reading and writing skills to support us to write an informal letter, a non-chronological report and a part of a narrative which incorporates dialogue.

## Science & Computing

In Science, we will be exploring our circulatory system and how water and nutrients are transported. As well as, recognising the importance of diet, exercise, drugs and lifestyle on the way the human body functions.

In Computing, we will develop our Digital literacy skills whilst continuously building upon our Esafety knowledge and using the SMART code.

## Maths

- Multiplying and dividing by 10, 100 & 1000
- Ordering decimals
- Fractions & percentages of amounts
- Converting between different units of measure.
- Square & prime numbers
- Finding the area, perimeter & volume
- Problem solving & reasoning

## History & Geography

In History, we will complete a study of Greek life and achievements and their influence on the western world, using our historical concepts to investigate and interpret the events and communicate historically.

As well as this, we will look in depth into the question 'How did Trade get Global?' and how this has changed over time.

## PE

This term we will be covering the units: Dance and Games. We will explore dances from around the world, including the Haka, as well as creating our own. We will also understand and apply the basic rules of Volleyball.

## PSHE & RE

In PSHE, we will build on our understanding of democracy, the rule of law, individual liberty and mutual respect. We will also explore our 'Dreams and Goals' and how we can achieve them.

This term we will be having RE focused days around the themes of, 'How do people mark life's milestones?' and 'How do different religions express belief through the arts?'

## MFL & Music

In Music, we will be exploring different compositions and the feelings they can evoke. We will delve deeper into 'A New Year Carol' and 'You've got a friend in me.'

In Modern Foreign Languages, we will continue to be learning key words and phrases in French.

## Art & DT

In Art and Design, we will look at 'Amazing Architecture' inspired by the Ancient Greeks and using the style of the artist Canaletto to paint the Parthenon.
